

## **ABSTRACT OF THE DISCLOSURE**

The invention may involve using an artificial intelligence engine to provide beauty advice. Beauty advice may include a recommendation for a product. The recommended product may be complementary to a second product. The second product may be a user-selected product. A notification of the recommended product may be provided to the user.

Patent Application No. 15/111,111, filed on June 1, 2016, is hereby incorporated by reference in its entirety.
